Body Language is a non-verbal communication where messages are sent through postures, eye-contacts, movements, usage of space and change in the intonation of voice etc. instead of using words and speech to communicate. The study of Body Language is also called “Kinesics” derived from the Greek word “Kinesis” meaning “motion”.

Understanding Body Language. Most everyone's body language is a bit different. Some body language might represent learned behaviors, while some of it might also be cultural (a thumbs up means drastically different things in various parts of the world). There does seem to be a certain amount of it hard coded into our DNA however.
