This paper provides some observations on the state of the art in marketing research. The primary and secondary thrust of the articles published in the Journal of Marketing Research during 1980-1986 is briefly reviewed to identify important areas of inquiry. In each of these areas, we summarize recent developments, highlight the state of the art, offer some critical observations, and identify ...

In physics, the observer effect is the theory that the mere observation of a phenomenon inevitably changes that phenomenon. This is often the result of instruments that, by necessity, alter the state of what they measure in some manner. A common example is checking the pressure in an automobile tire; this is difficult to do without letting out some of

We report NuSTAR observations of the millisecond pulsar-low-mass X-ray binary (LMXB) transition system PSR J1023+0038 from 2013 June and October, before and after the formation of an accretion disk around the neutron star. Between June 10 and 12, a few days to two weeks before the radio disappearance of the pulsar, the 3-79 keV X-ray spectrum was well fit by a simple power law with a photon ...
