A State team for young worker safety is a coalition of agencies and organizations whose goal is to protect the safety and health of young people in the workplace. The American Heritage Dictionary defines a team as “a group organized to work together.” This definition goes to the heart of the State team approach.

Working Together for Safety

The safest work environments occur when employees, at all levels of the organization, work together to communicate and adhere to the safety standards set in place. A successful safety program is one that encourages employees to report unsafe situations and behaviors, and encourages safe practices throughout each and every work day.

8 Workplace Safety Tips Every Employee Should Know ...

In a safe workplace, there are lots of teams working together. There's your safety management team. There are employees teaming up with co-workers formally and informally to protect one another. There may be a safety committee working as a team to identify and correct hazards.

It Takes Teamwork to Prevent Workplace Accidents - EHS ...

A "team" consists of two or more individuals engaged in an activity to reach a common goal. When we think of "teamwork" it is usually in the context of completing a task or a job together. Working together on the job has many benefits; physically helping each other distributes the work load, increases productivity and reduces the risk of injury.

Teamwork | Safety Toolbox Talks Meeting Topics

Teamwork is an integral part to the development of any safety oriented workplace. Without it, promoting a safety-oriented workplace is like building a house without a frame. A work environment that is truly safety oriented will reflect that in the attitudes of employers and employees alike.
